

**Application for Possession and  
Use of Radioactive Materials in Basic Research  
Supplemental Sheet for Additional Isotopes or Chemical Forms**

**Applicant**

Name: 

--	--	--

  
First MI Last

**Radioactive Material**

Radionuclide:  Chemical Form:

Physical Form:

- gas
- liquid
- sealed source
- other solid

Make/model:  Device make/model:   
describe source (e.g., powder, activated metal):

Activity per order	<μCi> <mCi>	Order frequency	per <week> <month> <year>
Activity per experiment	<μCi> <mCi>	Experiment frequency	per <week> <month> <year>
Maximum amount in lab at one time (including in waste):	<input style="width: 150px;" type="text"/> <μCi> <mCi>		

**Methods/Procedures** Describe the **laboratory procedures** performed with radioactive materials. (Reprint may be attached if it includes detailed description of the methods)

Have you performed these procedures previously:  yes  no

*If these procedures involve administration of radioactive material to animals, complete the Animal Use Questionnaire.*
